Holdover Drift That Looked Like Health

DATED	August 11, 2018	TYPE	Experiment summary
ORIGIN	Directorate III	SITE	CINDER
PAGES	5	CUSTODY	MERIDIAN

A follow-on to Experiment Delta at Timing Annex CINDER. The reference remained within envelope while disagreeing with three external attestations.

REDACTION: Numeric tables for one comparison chain remain RESTRICTED.

RESULT

INCONCLUSIVE as to mechanism. POSITIVE as to the need for disagreement-surfacing rather than averaging.

NOTE

A secondary residual near 1,270 seconds appeared in one chain and not in the others. It is filed, not celebrated.

End of record SEN-18-062. Reproduced from the Archive of record at MERIDIAN. Handling markings are internal publication conventions of Sentinel Research Group and correspond to no external scheme.
